Professional Summary

Computer Science graduate with strong foundations in Python, C, data structures, algorithms, operating systems, and machine learning. Experienced in building data-driven and system-level projects through academic and self-learning work.

Completed Harvard's CS50, strengthening problem-solving . Seeking an entry-level role in a high-impact technology company.

Technical Skills

- Programming Languages: Python, C
- Computer Science: Data Structures & Algorithms, Operating Systems, OOP
- Data & ML: Data Analysis, Machine Learning
- Databases & Web: SQL, HTML, CSS, Information Systems and Databases
- Systems: Linux, Hardware Basics
- UI/UX: HCI, UX/UI Principles

PROJECTS

HELP ME – Service Booking Web Platform (2025) | HTML, CSS, JavaScript

- Designed and developed a responsive frontend web platform connecting users with verified service providers
- Implemented smart filtering and sorting based on ratings, price, distance, and expertise
- Simulated real-world booking and payment user flows with focus on intuitive UI/UX

Job Acceptance Prediction System (2024) | Python, Machine Learning

- Built end-to-end ML pipeline including data cleaning and preprocessing, feature engineering, and model selection
- Trained and optimized Random Forest, AdaBoost, Logistic Regression, and KNN models using Sklearn library
- Achieved high validation AUC with minimized overfitting through cross-validation

Education

- B.Sc. in Digital High-Tech Sciences
Tel Aviv University | Graduated 2025
- B.A. in Health Systems Management (Honors)
The Academic College of Law and Science | 2019 – 2021
- CS50: Introduction to Computer Science
Harvard University (Online)

Relevant Coursework:

Data Structures & Algorithms, Operating Systems, Machine Learning, Image Processing & Computer Vision, Databases, Information Systems, Hardware Design, Python & C Programming, Introduction to Generative AI (powered by Google Cloud)

Experience

Instructor – Beit Eckstein, Herzliya | 2021 – Present

- Took ownership of planning and managing daily activities, ensuring structure, safety, and goal alignment
- Coordinated with multidisciplinary teams to adapt processes, prioritize tasks, and deliver reliable outcomes
- Developed strong communication and problem-solving skills through working with diverse populations
- Demonstrated responsibility, consistency, and teamwork in a structured, high-accountability environment

Languages

Arabic – Native | Hebrew – Fluent | English – Advanced
